

Conferences, training events and workshops

Quantitative Proteomics and Data Analysis
4 – 5 April 2016

Queen Hotel, Chester, UK

**79th Harden Conference: Oxygen Evolution
and Reduction - Common Principles**
16 – 20 April 2016

Grauer Bär, Innsbruck, Austria

Cilia, Cytoskeleton and Cancer
25 – 26 April 2016

IGMM, Edinburgh, UK

**Bioinformatics Tools for Functional Annotation
and Variance Modelling**
27 April 2016

Charles Darwin House, London, UK

**Protein Modelling and Structure-Based
Function Prediction**
20 – 21 June 2016

University of Liverpool, UK

**Phosphatases and Signalling in Health
and Disease**
20 – 22 June 2016

University of Bath, UK

**European Cytoskeletal Forum - Cell Adhesion
and Migration**
20 – 23 June 2016

Robinson College, Cambridge, UK

Translation UK 2016
5 – 6 July 2016

University of Surrey, UK

Protein O-GlcNAcylation in Health and Disease
8 July 2016

Charles Darwin House, London, UK

**Leucine Rich Repeat Kinase 2: Ten Years
Along the Road to Therapeutic Intervention**
11 – 13 July 2016

Hentley Business School, Greenlands, UK

80th Harden Conference: Machines on Genes IV
31 July – 5 August 2016

Shrigley Hall Hotel, Macclesfield, UK

Structural Aspects of Infectious Disease
8 – 10 August 2016

Robinson College, Cambridge, UK

81st Harden Conference: RNA and Disease
4 – 7 September 2016

Norton Park Hotel, Winchester, UK

7th European Conference on Tetraspanins
7 – 9 September 2016

University of Sheffield, UK

Pseudoenzymes 2016
11 – 14 September 2016

Liverpool Maritime Museum, UK

**Protein S-palmytation, from mechanism
to application**
21 – 23 September 2016

St Hilda's College, University of Oxford, UK

Synthetic Biology UK 2016
14 – 16 November 2016

Dynamic Earth, Edinburgh, UK

**De-Mystifying X-ray Data Processing in
Macromolecular Crystallography**
15 – 16 November 2016

Charles Darwin House, London, UK
