Programming Skills Studentships – Application Form questions

Our online studentships aim to equip students with analytical and computational tools useful for their career progression and graduate school applications.

Application Questions

- 1) Why are you applying for this studentship? (max 150 words)

This statement should include details of your future study/career plans and how this studentship might contribute towards these.

- 2) What analytical and computational skills do you specifically hope to learn during this studentship, and how do you think these will enhance your future study/career? (max 150 words)
- 3) What other skills and knowledge do you hope to develop during this studentship (for example transferable skills), and how do you think these will enhance your future study/career? (max 150 words)
- 4) This studentship will take place entirely online, and the courses can be completed at your own pace (within 8 weeks). How do you plan to manage your time to complete the courses? (max 150 words)
