10 ways to engage with the Biochemical Society

We've been at the forefront of advancing molecular bioscience for over 100 years, facilitating the sharing of knowledge and expertise, and supporting molecular bioscientists across all career stages. Join our community and get involved in an exciting range of activities to match your interests!

Become a member
Join our diverse community from across the world and expand your molecular biosciences network.

Attend an upcoming event
Present your work, network with experts or propose a topic with our extensive range of scientific conferences and training. Members get discounted rates.

Apply for a grant or bursary
Secure funding to participate in meetings, develop new skills, undertake research and enhance your scientific events and outreach projects.

Publish in one of our journals
Featuring world-leading research and reviews, share your expertise to drive forward molecular bioscience research.

Write for The Biochemist
Share news and views on current scientific topics, careers, policy, outreach and more in our community magazine.

Participate in a webinar
Discuss your latest insights, educate participants on new technologies or enhance your skills by attending or presenting in our free webinar series.

Explore our resources
Discover useful advice and practical support to help you transition through a variety of careers, studies, and opportunities.

Nominate a colleague
Celebrate excellence across the molecular biosciences by nominating an outstanding individual or team for a Biochemical Society Award.

Join a committee
Get involved with one of our committees, panels, or boards to influence activities in EDI, grants, publications, scientific meetings, education and more.

Become an advocate
Promote our activities through your networks and help us support your community.
