

BIOSCIENCE REPORTS

YOUR HOME FOR SOUND SCIENTIFIC RESEARCH

portlandpress.com/bioscirep

Providing a platform for valid findings and data, *Bioscience Reports* is a fully open access journal publishing sound scientific research in all areas of cell biology and the molecular life sciences. Assessed on soundness alone, accepted papers are indexed in DOAJ and published under the liberal CC BY license.

Editor-in-Chief

Weiping Han (Agency for Science, Technology and Research, A*Star Institute, Singapore)

Deputy Editor-in-Chief

Christopher Cooper (CHARM Therapeutics, UK)

Associate Editors

Tom Van Agtmael (University of Glasgow, UK)

Jane Rosemary Allison (The University of Auckland, New Zealand)

Edward Bolt (University of Nottingham, UK)

Kakoli Bose (Tata Memorial Centre, India)

Valerie Chew (Duke-NUS Medical School, Singapore)

Ricardo Correa (NCI-Designated Cancer Center, Sanford Burnham Prebys (SBP) Medical Discovery Institute, USA)

Jean-Bernard Denault (Université de Sherbrooke, Canada)

Karla Feijs (RWTH Aachen University, Germany)

Lorna Fiedler (OxStem, UK)

Nicola K. Gray (University of Edinburgh, UK)

Subash Chandra Gupta (Institute of Science, Banaras Hindu University, India)

Michael Huang (University of Sydney, Australia)

Wei Li (Beijing Children's Hospital, China)

Amy L. Milton (University of Cambridge, UK)

Sumit Sahni (University of Sydney, Australia)

Fraser Scott (University of Strathclyde, UK)

Jan Skoda (Faculty of Science, Masaryk University, Czech Republic)

Nathan Subramaniam (Queensland University of Technology, Australia)

Yee-Joo Tan (National University of Singapore, Singapore)

Vinay Tergaonkar (Institute of Molecular and Cell Biology, A*Star Institute, Singapore)

Georg C. Terstappen (OxStem, UK)

Mark D. Turner (Nottingham Trent University, UK)

Rietie Venter (University of South Australia, Australia)

Giong Annabel Wang (City of Hope National Medical Center, USA)

Caroline Lei Wee (A*Star Institute in Singapore, Singapore)

Min Wu (Yale School of Medicine, USA)

Ming Yang (Oklahoma State University, USA)

Chen Zhang (Capital Medical University, China)

The Biochemical Society works in partnership with researchers, institutions, and funders to share knowledge and advance the molecular biosciences. Disseminating world-leading research and reviews through our publishing arm, Portland Press, we return all related profits to the life science community in support of our charitable activities. With more than 5.4 million worldwide article views in 2022, our journals cover the breadth of the molecular biosciences and support the transition to a more open scholarly landscape.

Open scholarship

As an independent society publisher, we're committed to an open research landscape that supports global scientific advancement. As well as pursuing a sustainable transition to full open access publishing, we've implemented policies that promote open data and improved transparency on author contributions, and have integrated the unrestricted availability of article citations, references, and abstracts.
